## EXPERIENCE

### US NEWS & WORLD REPORT // RESEARCH ANALYST

2021 - PRESENT

GEORGETOWN DC

- Working within 360 Reviews, I perform SEO research and analyze and collect data on products for upcoming ratings.
- I conduct user research to uncover what products the users are more likely to purchase.
- I aggregate data to help summarize data from different, disparate and multiple sources.
- I create and update multiple meta-analysis for various different research projects.

### FREELANCE // WEB DESIGNER & PHOTOGRAPHER

2018 - PRESENT

ARLINGTON VA

- I've worked with clients on their professional websites. I've planned, created and coded their sites and web pages.
- I create designs, logos and layouts of the websites.
- I make the sites SEO-friendly and work within the metadata and meta-descriptions.
- I teach photography one-on-one (techniques, compositions, equipment, editing and social posting).
- I photograph parties, formals and other social events.

### TECHNOLOGY & DESIGN // LEAD PHOTOGRAPHER

2017 - 2021

HARRISONBURG VA

- I was lead photographer on the creative projects team for JMU's media shop. I set and lead staff meetings, interacted with clients and provided visuals for the Universities websites.
- As a member of the team, I shot, selected, edited and retouched photos for brochures, magazines, posters and social media that promoted the universities activities to the campus community and alumni.
- We used rapid prototyping and agile methods to provide quick turnarounds that were always customized to the client's needs, both print and social.

### FOROIGE // WEB DESIGNER

2019

GALWAY IRELAND

- I was the member of the web team for JMU - Foroige international educational partnership.
- I was responsible for the front-end development of a public service website to increase community awareness about reducing food waste in Galway.
- I determined the layout, theme and selected and edited multimedia content (video/photo/text).
- I launched the final site at 2019.jmuireland.com
